

LP-DS-L is a double sided suspended sign frame in a landscape configuration.

Double side anodized aluminum caps are positioned on the sides to hold two back to back Leader Prestige profiles and create a simple yet elegant curved face suspended sign.

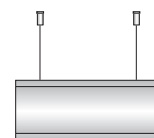

The LP-DS-L is available in five standard heights: 94, 124, 168, 230, and 320mm with endless width options.

All presented width options are commonly used sizes; however, customized widths are available upon request.

The Leader prestige features unique rounded micro snap side profiles, allowing a fast and simple insert change without compromising its elegance. The side clips are offered in 5 spectacular colored anodized finishes: Silver, gold, black, red, and blue.

The installation can be done by using chrome plated auto lock cable grip ceiling anchors.

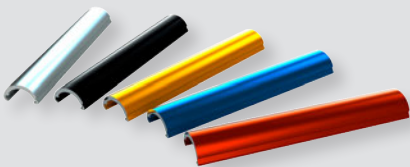

Vinyl graphics can be applied directly on the profile's smooth curved face, or a printed paper can be used as artwork with a clear lens cover.
