

**LV-DS-L** is a double sided suspended sign frame in a landscape configuration.

Double sided anodized aluminum caps are positioned on the sides to hold two back to back Leader View profiles and create a simple yet elegant curved face suspended sign.

The LV-DS-L is available in seven standard heights: 70, 94, 124, 170, and 230, 320 and 400mm with endless width options.

All presented width options are commonly used sizes; however, customized heights are available upon request.

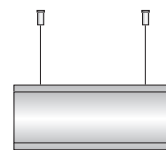

The installation can be done by using chrome plated auto lock cable grip ceiling anchors.

For sign frames which height ranges between 70mm and 230mm, vinyl graphics can be applied directly on the profile smooth curved face, or printed paper with a clear lens cover.

For sign frames which height is 320mm and 400mm we offer two face type options:

AA- Full size Anodized Aluminum face.

AC- Mill finish Aluminum sheet with Clear lens cover, for printed paper inserts.

1

Double sided anodized aluminum caps are positioned on the sides to hold the two back to back Leader View profiles

3

Multiline sign combination

2

Installation can be done by using chrome plated auto lock cable grip ceiling anchors and PVC coated steel cable.

4

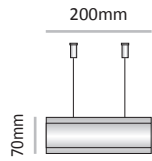

An easy insert removal using our silicone suction cup
